SUMMARY

Enthusiastic frontend engineer building responsive web and SaaS products with React, Next.js, and Vue.js. Thrives on continual growth, collaborating across teams to ship clean integrations and high-performing user interfaces.

WORK EXPERIENCE

Software Engineer

Jun 2025 – Present

Mediusware Ltd.

- Delivered responsive front-end experiences for FrontRunner, Basic Training LMS, Busy Brains, and CarVu using React.js, Next.js, and Vue.js.
- Built reusable components and integrated features and APIs across products with cross-functional teams.
- Conducted code reviews, standardizing inconsistent coding patterns across files to improve readability.
- Improved performance through code splitting, lazy loading, memoization, and bundle-size reduction.

Projects: FrontRunner, Basic Training LMS, Busy Brains, CarVu

Junior Software Engineer

Aug 2023 – Jun 2025

Singularity Ltd.

- Shipped front-end solutions for client projects including Runner Properties Ltd., Polar Sampling Platform, and DBL Kiosk Platform using Vue.js and React.js.
- Enabled smoother project integration by coordinating with cross-functional teams and managing API interactions between systems.

Projects: Runner Properties Ltd., Polar Sampling Platform, Grevent, DBL Kiosk Platform, Big Blue, Kyro, Namss Motors, WeWill, Lexodi, JCI Club Management, BAT Scrom, KDS.

Products: Lead management, BCRP, RAL, RVT, TMV, RML

Marketing

Nov 2020 – Feb 2022

Multiply Digital

- Kept client deliverables aligned with expectations by gathering requirements directly with stakeholders.
- Supported both software evaluation and campaign delivery through development assessments and marketing content production.
